

**The silent system
for retrofitting.
For upright and
grand pianos.**

The new silent system
by Excellent Piano Installs

Play piano whenever you like.

adsilent 2 impresses with excellent piano sounds with 9+ sample layers recorded by European specialists. Touchless key and pedal sensors, unparalleled in their space requirements and high precision, underline the leading position of the adsilent technique. The combination of its technology with modern features like USB-C, integrated Bluetooth MIDI* and wireless remote control via app make it really unique.

- ✓ Superb piano sounds with 9+ sample layers and 128 dynamic levels
- ✓ Additional new sound samples for e.g. Electric piano and strings
- ✓ 100% touch-less sensors for keys and pedals
- ✓ Integrated Bluetooth 5.1 for MIDI*
- ✓ Max. 247 note polyphony
- ✓ 128 sounds
- ✓ Sound-effects (reverb, chorus, etc.)
- ✓ Metronome
- ✓ USB-C for MIDI

* Bluetooth MIDI feature currently only available for Mac, smartphones and tablet computers.

Ideal for learning

Watch your teacher via YouTube or video conference on the tablet. The sound from the teacher is sent into the adsilent 2 via LINE IN. In the headphones you hear your piano playing and the lesson from the teacher. Learning to play piano has never been easier.

Record & Play

Record part of a four-hand piece. While playing your recording – play along – that way you can practice four-hand pieces, also when your partner isn't available. Or, share your recordings with friends. All this is possible with the adsilent!

At home

Use the adsilent system at home during the day or at night with headphones. Or listen to your performance, your recordings or an accompaniment instrument sound via speakers.

App for Smartphones

Using the free app provides quick and easy access to settings e.g. for sound or reverb. Naturally the system can also be operated without the app.

Combine with a player system

adsilent can also be added to a player system as a recording system. This combination, will enable you to record your piano performance and play it back live on your player system.

Operation also wireless via Android or iOS app.

The adsilent 2 app is a companion app for the adsilent 2 system for upright and grand pianos. The app allows you to easily access and adjust settings such as sound and reverb.

Adapt the system to your instrument and taste:

Available settings:

- ✓ Piano type
- ✓ Split/Combine Instruments
- ✓ Fixed Velocity
- ✓ Tuning for individual keys
- ✓ Tuning all keys
- ✓ Touch control/dynamic curve
- ✓ Note repeat limit
- ✓ Black key volume
- ✓ Individual key volume
- ✓ Pedal switch point
- ✓ Key depth (key travel)
- ✓ Backup of your settings
- ✓ Auto Power Off Timing
- ✓ Sensitivity of the right pedal
- ✓ Intensity of the left pedal effect
- ✓ Intensity of damper- and string-resonance
